NABR NETWORK COMMUNICATION COURSE APPROVED BY CAMICB FOR CONTINUING EDUCATION CREDIT

Lewisville, Texas (January, 2016) – Nabr Network is proud to announce that James Garner’s course, *Turn the Page: Communications Extravaganza* has been approved by CAMICB for Continuing Education credit.

“The course is a fun look at new ways with current technologies to effectively communicate to residents,” said Garner. “By capturing the benefit of mobile and web technology, one can quickly see the value of more touches that engage a resident where they live. It challenges the minimal communication approach and it proposes to maximize the power of communication technologies that save time and facilitate greater engagement.”

James Garner is the Vice President of Business Development at Nabr Network. He brings over 25 years of experience in capturing the benefit and energy of technology to enhance effective communication strategies and optimize operational efficiencies.

Nabr Network provides the HOA industry the most comprehensive communication platform to facilitate communication via multiple formats. Nabr Network is a business member of Community Association Institute (both nationally and regionally), Arizona Association of Community Managers, California Association of Community Managers, and Florida Community Association Professionals.

Turn the Page: Communications Extravaganza will be offered across the country at association management industry events such as TOPS CAMfire and the CAI Annual Conference in Orlando.

About CAMICB

CAMICB is an independent board that sets the standards for community association managers worldwide. It is the first and only organization created solely to certify community association managers and enhance the professional practice of community association management.
