NABR NETWORK PARTNERS WITH SCS MANAGEMENT SERVICES TO CONNECT HOUSTON-AREA HOAs WITH A WEB PRESENCE AND MOBILE APP

Addison, Texas (April 29, 2015) – Jeff Miles, president and CEO of Nabr Network, has announced that SCS Management Services, Inc. (SCS) and Nabr Network are working together to bring superior communication to the management company’s entire portfolio of community associations. This partnership allows SCS to offer its communities a comprehensive web presence and mobile communication app.

SCS has been providing professional community association management to master-planned communities, planned residential developments and commercial associations for nearly 40 years.

“We understand that our associations are looking for modern ways to connect,” said SCS President Cathy Jensen. “Our team of community managers can now use Nabr Network’s one-touch messaging system to quickly distribute important information to residents via automated web updates, email, text, iOS/Android notifications, mobile app and the Nabr Network community feed.

“Having Nabr Network on our side provides us with a tremendous competitive edge.”

Traditionally, HOA websites have required a web administrator to use content management systems to update the website—sometimes with varying results depending on the skill of the user and the usability of the content management system. This put a burden on community managers who are responsible for sharing information on HOA websites, as well as across other separate communication channels. This partnership enables SCS to offer their communities something beyond just a website; SCS is now providing a fully integrated communication platform.

“Nabr Network will empower the SCS managers to easily share HOA information and calendar events, all while providing the community with a web presence that residents have come to expect from their management company,” James Garner, Vice President of Business Development at Nabr Network, said. “SCS is a company with great leadership and an impressive history; we are proud to be part of their future.”

The Nabr Network app is available for SCS residents through the App Store and Google Play.

About SCS Management Services, Inc.
