## NABR NETWORK TO DEBUT NEW FEATURES AT COMMUNITY ASSOCIATION INSTITUTE NATIONAL CEO-MC RETREAT

Lewisville, Texas (October 11, 2017) – Nabr Network is excited to announce our newest feature—architectural review committee (ARC) and work order import.

Nabr Network can now pull Architectural Requests from Caliber and VMS. Nabr Network can also pull Architectural Requests for companies that use SmartWebs for ARC.

Work orders can be pulled from Caliber, TOPS and VMS.

The work order and ARC software integration empowers residents to check the status of their request on Nabr Network’s mobile and web platform. Residents using Nabr Network now have access to their payments and balances, important association communication, payment links and work order and ARC requests all in one place.

“This is a powerful new feature,” remarked James Garner, vice president of Nabr Network. “Owners can now use Nabr Network as a one stop shop for all of their Association needs. Information that once required a separate portal login is now available with a single sign on to Nabr Network.”

The Nabr Network team will be demonstrating this powerful new feature at our information table at the Community Associations Institute (CAI) CEO-MC Retreat. The CEO-MC Retreat is the premier executive education program for CEOs and senior executives in the community association industry.

Nabr Network is a Platinum Sponsor of the CAI CEO-MC Retreat.

Nabr Network is the industry’s most comprehensive [private communication](#) platform and web presence-- specifically developed for community associations. Nabr Network goes beyond traditional websites and email blasts to deliver time-sensitive alerts, reminders and event notifications on the devices that residents prefer to use.
